

Chandan Verma

Java Backend Engineer

+91 9102758286 | Chandanv016@gmail.com | linkedin.com/in/chandan-verma016 | Hyderabad, India

Summary

Java Backend Engineer with close to 2 years of hands-on experience designing and delivering scalable RESTful APIs and event-driven microservices using **Java (8/17/21/25)**, **Spring Boot 3.x**, **Spring Cloud**, and **Apache Kafka**. Proven record of improving system interoperability, reducing latency, and maintaining 90%+ automated test coverage. Skilled in distributed systems design, database performance tuning, and Agile delivery, with hands-on cloud exposure through Microsoft Azure certifications.

Experience

Capgemini

Analyst / Software Engineer

Hyderabad, India

October 2024 – Present

- Designed and integrated RESTful web services using **Java 8/17/21/25** and **Spring Boot 3.x**, improving system interoperability by **30%** across client-facing applications.
- Architected distributed microservices with **Spring Cloud (Eureka Server)** for service discovery, reducing service resolution overhead by **25%**.
- Built responsive frontend interfaces using **HTML5**, **CSS3**, **JavaScript**, and **Angular**, integrated with backend REST APIs.
- Enforced code quality standards with **JUnit** and **Mockito** unit/integration tests, sustaining **90%+** code coverage across releases.
- Collaborated in Agile/Scrum ceremonies using **Git** and **Maven**, compressing sprint release cycles by **15%** through CI-friendly branching and build practices.

Projects

Fleet Operations Command Platform | Java, Spring Boot, Kafka, MySQL, Hibernate

May 2025 – Aug 2025

- Architected a multi-service fleet management platform (Fleet, Device, Maintenance, Analytics services) supporting **5,000+** active units.
- Implemented event-driven messaging with **Apache Kafka** to publish lifecycle events and stream real-time notifications in under **200ms**.
- Applied the **Transactional Outbox Pattern** with consumer deduplication, achieving **99.9%** message consistency across services.
- Eliminated race conditions using **Optimistic/Pessimistic Locking** (FOR UPDATE SKIP LOCKED in MySQL) and request idempotency.
- Engineered telemetry data pipelines with **Hibernate batch processing**, increasing write throughput by **3.5x**.
- Hardened service-to-service calls with **Resilience4j** (Circuit Breaker, Retry, Rate Limiter) to contain cascading failures across microservices.

Online Furniture Store | Java, Spring Boot, JWT, Feign, Swagger

Jan 2025 – Feb 2025

- Built a secure User module with **JWT authentication** and **role-based access control (RBAC)** supporting **10,000+** simulated users.
- Integrated **Feign Client** for inter-service communication, cutting inter-service latency by **30%**.
- Designed, configured, and documented **30+** REST API endpoints using **Swagger** and **Postman**.

Telegram Bot with Payment Integration | Java, Supabase

Mar 2026 – Apr 2026

- Developed an automated Telegram bot with a **Java** backend to process purchases across **5,000+** active user sessions.
- Integrated **Supabase** as the data layer for order management and real-time payment transactions with sub-second response times.

Technical Skills

Languages: Java (8/17/21/25), SQL, JavaScript, HTML5, CSS3

Frameworks: Spring Boot 3.x, Spring Core, Spring REST, Spring Data JPA, Spring Cloud (Eureka, Feign), Resilience4j, Angular

Databases & Middleware: MySQL, NoSQL, Supabase, Apache Kafka

Tools & Testing: Git, Maven, Postman, Swagger, JUnit, Mockito

Cloud: Microsoft Azure (Developer Associate, Fundamentals, AI Fundamentals)

Education

GL Bajaj Institute of Technology and Management

Master of Computer Applications (MCA)

Noida, India

2021 – 2023

- Key Coursework: Data Structures, Object-Oriented Programming, Software Engineering, Database Systems, Java Enterprise.

Certifications

Oracle Certified Associate, Java SE 8 Programmer | Microsoft Certified: Azure Developer Associate (AZ-204) | Microsoft Certified: Azure Fundamentals (AZ-900) | Microsoft Certified: Azure AI Fundamentals (AI-900)
